

Turns DOMESTIC WASTE WATER into REUSABLE WATER

Germany's first certified small scale waste water treatment
with membrane bioreactor technology

Reference special applications

Type	BUSSEMF type MF-SKA 6	
Location	Rental yacht „Müritz-Sail“ Shipyards Kuhnle Rechlin	
Commissioning	2006	
Size of plant (population equivalent)	[p. e.]	6
Required space	[m x m]	In the engine room 0,5 x 0,7 m
Additional requirements	Direct discharge in sensitive waters	
Reuse of water		

Boat in the shipyard during the installation

Sewage and aeration tank with control unit

Membrane biology reactor in the engine room

Steering stand with access to the engine room
